ACF Opportunities for Secondary
The American Culinary Federation (ACF) was founded in 1929 and is the largest professional chefs' organization in North America with more than 15,000 members belonging to more than 150 chapters across the U.S. and internationally.

ACF is the industry leader in offering educational resources, training, apprenticeship, competitions and programmatic accreditation designed to enhance professional growth for all current and future chefs and pastry chefs.
Why Offer ACF Certification?

With thousands of chefs competing in the job market, it is essential to prove culinary competency. Give your students the skills they need to be successful.

ACF offers 15 levels of certification, from entry level with no work experience to master level, to validate culinary skills and make your students a more valuable candidate for hiring.

ACF certification is the only culinary program with stackable credentials and is recognized throughout the industry as the standard for excellence in professional skills and knowledge.

There are many different pathways to certification, including apprenticeship, culinary school and work experience.
ACF Certification for Secondary Students

The ACF Certified Fundamental Cook credential is the first step on a ladder of certifications recognized by the Department of Labor and is on Florida’s 20/21 CAPE Industry Certification Funding List.

Students earning their ACF certification will receive a digital badge to validate and share their credentials through social media and on an ever-expanding online marketplace. They can proudly wear the CFC designation on their chef coat.

Requirements:

• 30 hours of Culinary Nutrition
• 30 hours of Food Safety and Sanitation
• Successful completion of written and practical exams administered through NOCTI (ACFEF-accredited programs exempt) – year-round testing
• Submit group application to ACF – student name required, email optional for digital badge, minimum 2 week processing
Launching in September, ACF’s digital badges will increase visibility and validate skills and knowledge competencies to employers.
