

Statement

Todd R. Gold, BS, WCCE, WCEC, CEC, CCA, AAC

February 23rd, 2026

Currently, I serve as the Central Regional Chair of the Finance and Investment Committee, a two-year term. I am running for the Chair of the Finance and Internal Audit Committee.

If elected, the Committee's focus will remain on its ongoing oversight and assurance activities, with a goal of strengthening financial stewardship through a comprehensive risk management and internal control framework currently in development. Additionally, the Committee will advance a proactive internal audit program that emphasizes timely, evidence-based insights to support strategic decision-making.

The evolution of financial governance within ACF has shifted to prioritize principles such as accuracy, accountability, transparency, security, and prudent resource management in all financial processes. This transformation transcends mere compliance and involves a rigorous assessment of the long-term fiscal implications of decisions to safeguard the federation's sustainability and member trust.
