

I believe that the roll of secretary, and the communication channels managed therein, will be crucial to the success of the next board and the ACF. If elected, I pledge to assure that the membership is kept informed. I will also act to ensure that effective communication methods are in place for the ACF board of directors and the National Staff to communicate effectively, & frequently. I will furthermore strive to assure that your voice is not only heard, but that your ideas and concerns are sought, as we work collaboratively to assure that ACF thrives into the future.
